

29 December 2016

*Happy New Year from Trans-Northern, operator of the Alberta Products Pipe Line Ltd.*

As we approach a new year, we want to provide some updates on our operations and, most importantly, thank you for your attention to the pipeline that crosses your property.

Our highest priority is always to operate in a safe and environmentally responsible manner, working together with people like you who live and work near our pipeline. Below and enclosed you will find some additional information about our operations and Alberta's pipeline regulations.

### **Replacing our Pipeline**

By now, most of you will have been contacted by our land company to discuss survey and routing for our replacement pipeline. We appreciate the time and effort you have taken to assist us and to participate in discussions on this important project. We continue to speak to landowners along the route. To date, approximately one-third of the landowners have signed easement agreements. We hope to begin our applications to the Alberta Energy Regulator (AER) by the end of the first quarter of 2017 for some parts of the project and to begin construction activities in the second half of 2017, subject to regulatory approval.

As always, if you have any questions about this project, please contact Mark Cooper, Project Lead at Canada West Land at 1-844-874-2841.

### **Our Shared Role in Pipeline Safety**

At Trans-Northern, we ensure the safety of the pipeline by:

- **Monitoring** the pipeline 24 hours a day, seven days a week from our control centre
- Regularly **inspecting** the inside of the pipeline using specialized tools
- **Patrolling** from the air and on the ground to identify hazards or unauthorized activities

We also need your help. Unfortunately, the most common cause of damage to a buried pipeline such as ours is uncontrolled digging. Using heavy equipment on top of the pipeline or digging without knowing the exact location of the pipeline can be very dangerous.

You can help:

- **Watch and report** unusual smells, vandalism, broken marker signs or other damage by calling or emailing us at 1-800-361-0608 or [info@tnpi.ca](mailto:info@tnpi.ca)

- **Review and keep** the enclosed *Pipeline Safety in your Community* brochure and information from the AER which oversees our operations in Alberta.
- **Visit** [www.tnpi.ca](http://www.tnpi.ca) for more information

### **Keeping in Touch**

We want to continue to ensure we have accurate contact information for those living near the pipeline and that you know what to do if you have questions.

If your contact information has changed or if you have not shared your contact information with us in the past, please let us know by emailing us at [info@tnpi.ca](mailto:info@tnpi.ca) to share your:

1. Name
2. Address
3. Telephone number
4. Email address
5. Preferred method of contact (mail or email)
6. A telephone number where we can contact you in case of an emergency if different from your everyday number

Thank you for your time and attention. Best wishes for a safe and happy new year. We hope you enjoy the enclosed calendar.

Yours truly,

Gail Sharko  
Manager, Regulatory & External Affairs

Encl.
